Summary

Passionate and adaptable Computer Technology Engineering student dedicated to continuous personal and professional growth. Thrives in dynamic environments, embracing every opportunity to take on new challenges and expand skill sets. Excited to travel the world and gain diverse perspectives through experiences like an upcoming international exchange semester, which will further enhance problem-solving, teamwork, and innovation. Committed to delivering impactful results, building meaningful connections, and growing as a global professional in the field of technology.

Education

Instituto Tecnológico y de Estudios Superiores de Monterrey

Aug 2022 – Jun 2026

- Bachelor's Degree in Computer Technology Engineering
- GPA: 3.8/4.0

Experience

Junior FullStack Developer (intern), AMN Investment – Monterrey, MX

Nov 2024 – Present

- Participating in software development initiatives at an investment startup, focusing on both frontend and backend development.
- Collaborating with the development team to design and build scalable web applications using C#, Angular, .NET 8, and TypeScript.
- Gaining hands-on experience in full-stack development while adhering to agile workflows.
- Contributing to the implementation of software solutions designed to enhance the performance of the platform and improve the user experience.

Technical Support (intern), Tuberia Industrial del Norte – Monterrey, MX

Aug 2023 – Sep 2024

- Provided technical support for ERP software migration, optimizing efficiency for 9,000+ unique products.
- Collaborated with cross-functional teams, ensuring smooth migration with minimal disruption.
- Delivered training to end-users, maximizing system utilization and adoption.
- Translated technical content to Spanish, improving accessibility for Spanish-speaking clients.
- Troubleshooted and resolved software-related issues, ensuring minimal disruption to business processes.

Volunteer Firefighter, Bon Air Fire Co – Philadelphia, PA

Aug 2023 – Sep 2024

- Completed foundational training, gaining essential life-saving skills and emergency response knowledge.
- Developed strong communication and problem-solving abilities through practical, hands-on experience.
- Enhanced time management skills, ensuring efficiency and effective prioritization in high-pressure situations.
- Demonstrated a commitment to applying and refining these critical skills in future professional roles.

Technologies

Programming Languages: JavaScript | Python | C++ | C# | TypeScript | Swift

Frontend Development: .Angular | React | Next.js | Figma

Backend Development: .NET | Node.js | Express.js | Flask

Version Control: Git | GitHub

Databases: MySQL | PostgreSQL | MongoDB

Cloud Technologies: Microsoft Azure

Languages: Spanish (Native) | French (Native) | English (Fluent)

Soft Skills: Teamwork | problem-solving | project management | communication, adaptability | leadership | attention to detail

Projects

BufeTec Application

github.com/benjaminbelloeil/BufetecApp

- Developed a Swift application to streamline communication between lawyers and clients for smaller legal matters. The app integrates MongoDB for data management and utilizes Microsoft Azure for planning. Created as part of a class project at Tec, it supports Bufetec's mission to offer free legal advice and affordable notarial services to underserved communities.
- **Tools Used:** Swift | MongoDB | Flask | Microsoft Azure
